TAX DAY RALLY

TIANANMEN / TAHIR / LIBERTY

4/17/12

5:30 PM DEWEY SQ

occupyboston, occupyjp, right to the city <http://occupyjp.org>

Why America is failing explained in simple English.

- US Gross Domestic Product: \$14,580,000,000,000
- Income for the top 20%: \$13,559,400,000,000
- Income for the Bottom 80%: \$1,020,600,000,000
- Mitt Romney's Effective Tax Rate: 14%
- Minimum-Wage Worker's Effective Tax Rate: 37%
- United States Tax Revenue: \$2,170,000,000,000
- Fed Budget: \$3,820,000,000,000

Now, remove 8 zeroes and pretend it's a household budget.

- Annual Family Income: \$145,800
- Dad's Income: \$135,594
- Mom's Income: \$10,206
- Dad's Household Contribution: 14%
- Mom's Household Contribution: 37%
- Combined Household Contribution: \$21,700
- Total Household Expenses: \$38,200
- Amount Dad is willing to pull from his Vegas Fund for Grandma's doctor and our kid's education: \$0

Stop the insanity. If the rich don't want to pay their fair share, it's time for them to find a new place to live.
